Dear Mr. Jansen,

Thank you for your recent communication. At your request, I reviewed photographs of aborted human embryos and fetuses posted on your website that are utilized in the Face the Truth campaign. I performed approximately 1200 abortions including both first and second trimester procedures in my career as a board-certified obstetrician/gynecologist. It is my professional opinion that the photos depict human embryos and fetuses and that these human embryos and fetuses are accurately captioned as to gestational age.

Very truly yours,
