

American Women's Health is pleased to announce the perfection and release to the public of the greatest innovation in the history of medical technology:

## THE HOME ABORTION KIT

Completely Safe! Completely Secure!  
Completely Private! Completely legal in all 50 states!  
100% Guaranteed! No doctor needed!  
Inexpensive!

### How does it work?

The Home Abortion Kit is an easy-to-use patented two-step process.

**First**, using our specially designed, convenient and comfortable E-Z Applicator, the woman fills her womb with our secret combination of chemicals and gentle enzymes that harmlessly break down the fetus into bio-waste in a mere ten minutes.

**Second**, using the vaginal pump, the woman removes the bio-waste from herself. All that is required is the pump and a gentle pushing. No mess, no hassle, no fuss! The bio-mass can then be disposed of down the toilet, down the drain, or into a compost heap because it is completely safe for the environment.

The Home Abortion Kit is safe to use up to the eighth month of pregnancy.

How can we make a **100% Satisfaction Guarantee**? On a clinical test of 10,000 unwanted pregnancies the Home Abortion Kit successfully terminated the pregnancy 99.95 percent of the time! We're so sure it will work for you that if you are unsatisfied we will arrange for a private and proper abortion at the clinic of your choice, free of charge!

The Home Abortion Kit retails for a mere \$400, far less expensive than a doctor's abortion because we are able to eliminate the doctor. During this special promotional event you may purchase three Kits for only \$1000, for future unplanned pregnancies.
