Dear Ms. Milano,

As you may know, the solemn season of Lent—the 40 days of prayer, fasting and generosity leading up to the celebration of Easter—begins on February 26, “Ash Wednesday.” On that day, I will be asking tens of thousands of people to begin praying for you every day, as part of the Pro-Life Action League’s annual Lenten Prayer Challenge.

We have chosen to pray for you this year because of your recent comments on social media praising legal abortion and justifying your choice to abort your own child to advance your career.

Please understand the purpose of this prayer campaign is not to condemn either you or your choice to get an abortion. We simply believe—consistent with the revelations of modern genetics and embryology—that abortion destroys the life of an innocent unborn child.

We also believe that this world would be a better place if our human family included the child you lost to abortion. He or she would have been so much more precious than a successful Hollywood career could ever be.

Each human person is uniquely known and loved by God. That includes both your aborted child and you. During Lent, we will pray for your heart to be filled with sympathy for all unborn children, and for you to reconsider your vocal public support for abortion.

We will also pray you will find a way to use the considerable talent God has given you to uphold the dignity of human life, including the most vulnerable of us all, the child in the womb.

Yours for Life,

Eric J. Scheidler
Executive Director

P. S. I should mention that as the father of six daughters, I am grateful for your work confronting the sexual exploitation of women and girls, and wish you every success with that campaign.
