

I am Dr. Tiller

On Sunday, May 31st, 2009, Dr. George Tiller was shot and murdered while attending church in Wichita, Kansas by an anti-abortion, "pro-life" activist.

Join us, Chicago, in memorializing his work on the second anniversary of his death.

Dr. Tiller provided late-term abortions to patients in the most extreme of circumstances: inescapable poverty, life-threatening medical complications, and cases of rape and incest.

We will rally at the site of "Chicago Women's Center," a fake crisis pregnancy clinic owned by Pro-Life Action League, an organization that fosters a climate of intimidation and terror for abortion providers and their patients.
