

# So what's wrong with Planned Parenthood?

Planned Parenthood has launched a major national campaign in an effort to avoid losing the \$363 million they receive from taxpayers every year.

It's time to set the record straight. Planned Parenthood is not the responsible, upright organization you may think it is:

 Planned Parenthood operates the nation's largest abortion chain, responsible for aborting more than 332,000 children in the womb every year.

 Planned Parenthood has been caught on tape 17 times in 10 different states covering up sexual abuse and aiding and abetting child sex trafficking.

 Planned Parenthood strongly opposes common-sense measures most Americans support, like parental involvement and a ban on partial-birth abortion.

 On Feb. 18, the House of Representatives responded to these problems and voted to defund Planned Parenthood—and now it's time for the Senate to act!

 Learn more about the dark side of Planned Parenthood and how you can keep your tax dollars from going to this irresponsible organization:
